

## **Statement on COVID-19 Clearance Notes**

Please note that we are unable to provide patients with COVID-19 clearance notes. It is not medically possible to clear a patient of COVID-19 based on clinical assessment alone, and at this time, mass testing is not available.

Furthermore, to reduce the risk of spread of respiratory illness, like COVID-19, we request your cooperation in avoiding asking employees or travellers to see a Doctor for a sick note. This type of request could result in exposure to infection and illness for the patient requesting the note, as well as other more potentially frail or compromised patients in our clinic.

We appreciate your cooperation in reducing the spread of illness amongst our patients and our community.

Sincerest regards,  
*The Physicians of STAR Family Health Team*
